

perfect palette Consultation

Page Hardware's In-Home Color Consultation

Take the guess work out of finding the right shades and finishes that compliment and reflect your personality, style and home.

To make the most of the color in your home, it's important to understand how color works in harmony with lighting, furnishing and your own personal preferences. Paint is one of the easiest and most inexpensive ways of transforming your living space. However, it can get quite expensive and frustrating if you end up repainting several times because the swatch you picked out at the store wasn't quite what you had in mind once you saw it on the wall of your room. We will work together to find the perfect paint color palette for your home.

What's included?

Introduction phone call - Your project will start with a telephone call prior to your appointment. This will help make the most of your time when the consultant is in your home.

One-hour visit to your home - Our consultant will come to your home for a one-hour visit to discuss your favorite colors and your decorating plans. The consultant will assess the space, lighting and architecture of your room to find the best colors for the space.

Personalized color palette - A paint color palette will be created for you to use not just in one room, but to coordinate the whole house.

Two free paint samples - Try two choices of color on the walls of your room, before making your final color selection.

Next steps - Come to the store and speak to our paint specialist, John Anderson, to purchase your paint, prep supplies, and sundries, and for advice on completing your painting project. If you are hiring a painter, John will happily speak with your painter to coordinate paint preparation.

Who is the color consultant?

Our consultant, Cristina Parent, is passionate about color. She earned a BFA in Interior Design from New York's Fashion Institute of Technology. She started her own design company, Atelier Interior Design, in 2005, and has worked in the interior design industry for almost 20 years. Cristina lives here in Guilford with her husband and two children.

How much does the consultation cost?

The cost of the above services, including two free paint samples, is \$100. A color consultation will ultimately save you time, money and work by giving you a personalized paint color plan for your project. All paint, sundries and supplies are available for purchase at Page Hardware. Cristina is available for further design consultation, at an additional, hourly rate.

We look forward to working with you and helping you create a beautiful home.
